

# Network PBX Web Client Layout

This topic provides an overview of Linkus Web Client.

## Navigation bar

Navigation bar provides quick access to the following features:

- **Extensions:** View colleague information, place audio/video calls or leave voicemails for colleagues.
- **Contacts:** Manage external contacts, or place audio calls to external contacts.
- **Chat:** Start a personal chat or a group chat with colleagues.
- **Video Conferencing:** Start an instant meeting or schedule a future meeting to discuss with multiple parties.
- **Operator Panel:** Manage calls of members in a specific group.

**Note:** The feature requires authorization from system administrator.

For more information about operations on Operator Panel, see [Operator Panel User Guide](#).

- **Call Centre Console:** Handle queue calls and achieve real-time call monitoring, reporting, and management.

**Note:** The feature requires support from PBX. Contact system administrator for details.

For more information about operations on Call Centre, see [Call Centre Console User Guide](#).

- **Call Logs:** View and manage your call logs.
- **Voicemails:** View and manage your voicemails.
- **Recordings:** View and manage your recording files.

# Network PBX Web Client Layout

- **Preferences:** Configure extension profile, extension presence, voicemail, audio and video, function keys, call-handling rules, email notifications, etc.
- **Chrome Extension:** Provide quick access to 'Linkus for Google' extension.

**Note:** The menu only appears when you haven't downloaded or enabled 'Linkus for Google' extension.

## Toolbar

Toolbar provides quick access to common actions:

- Place audio calls or video calls
- Monitor status of specific objects or quickly perform specific features via function keys
- Change user password
- Change extension presence
- Change agent status
- Change web language
- Download Linkus Desktop Client and Linkus Mobile Client
- Download 'Linkus for Google' Extension

## Workspace

Workspace is an area in which you can view or manage specific features.

## Portal of system management

Access the management portal of PBX server to manage specific system features.

**Note:** Only when system administrator grants you management permission can you view and access system management portal.
